

How to install the Windows driver for the Ricoh MP C4503 printer

Download the printer driver from the Ricoh web site - <http://www.ricoh-usa.com/downloads/downloads.aspx>. Enter the printer model number ("MP C4503") in the search box. Make sure the "Driver/Software" box is checked. Then click the search button.

The screenshot shows the Ricoh USA website's Downloads section. The browser address bar displays www.ricoh-usa.com/downloads/downloads.aspx. The page features a navigation menu with 'Downloads' selected. Below the menu, the heading 'Manuals, Drivers, Software and Brochures Downloads' is visible. A search bar prompts the user to 'Search model or category or subcategory'. An example text suggests entering 'Aficio SP C4100N or Multifunction Color or 23-45 ppm'. The search input field contains 'MP C4503'. Below the search bar, three checkboxes are present: 'Brochure' (unchecked), 'Drivers/Software' (checked), and 'Manuals' (unchecked). A 'SEARCH' button is located to the right of the search input. To the right of the search area, a 'Stay Informed' section offers a newsletter sign-up. Below the search section, a heading 'OR, Select category, subcategory and model below' is followed by a note about legacy models. A selection box contains three dropdown menus: 'Select Category/Solution', 'Select Subcategory', and 'Select Model'. At the bottom, another heading 'OR, Select category and download type below' is visible.

[Close](#)

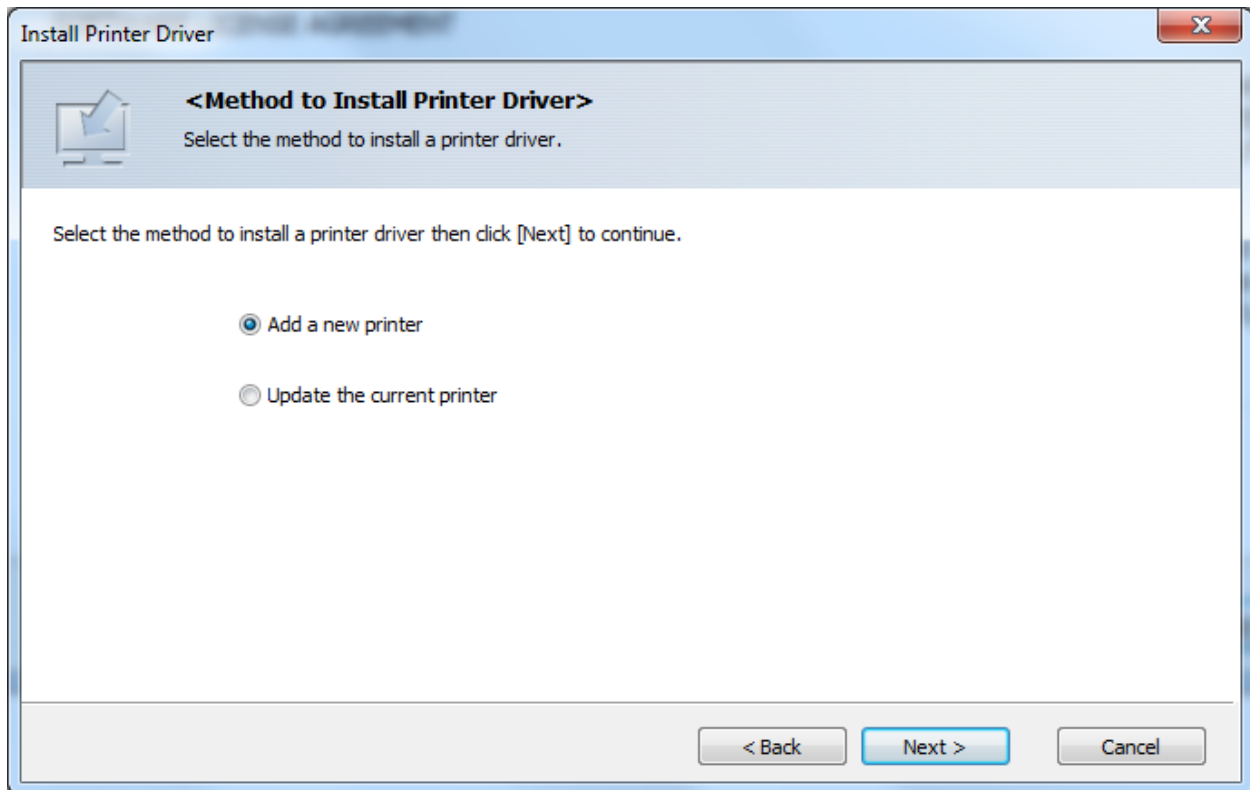

Double click on the downloaded file (in this case “z72088L16.exe”) to expand the installer. Take note of where the installation materials are stored.

Run the downloaded installer (in this case “RP_SETUP64.EXE”). It takes the program quite a while to get started. Be patient.

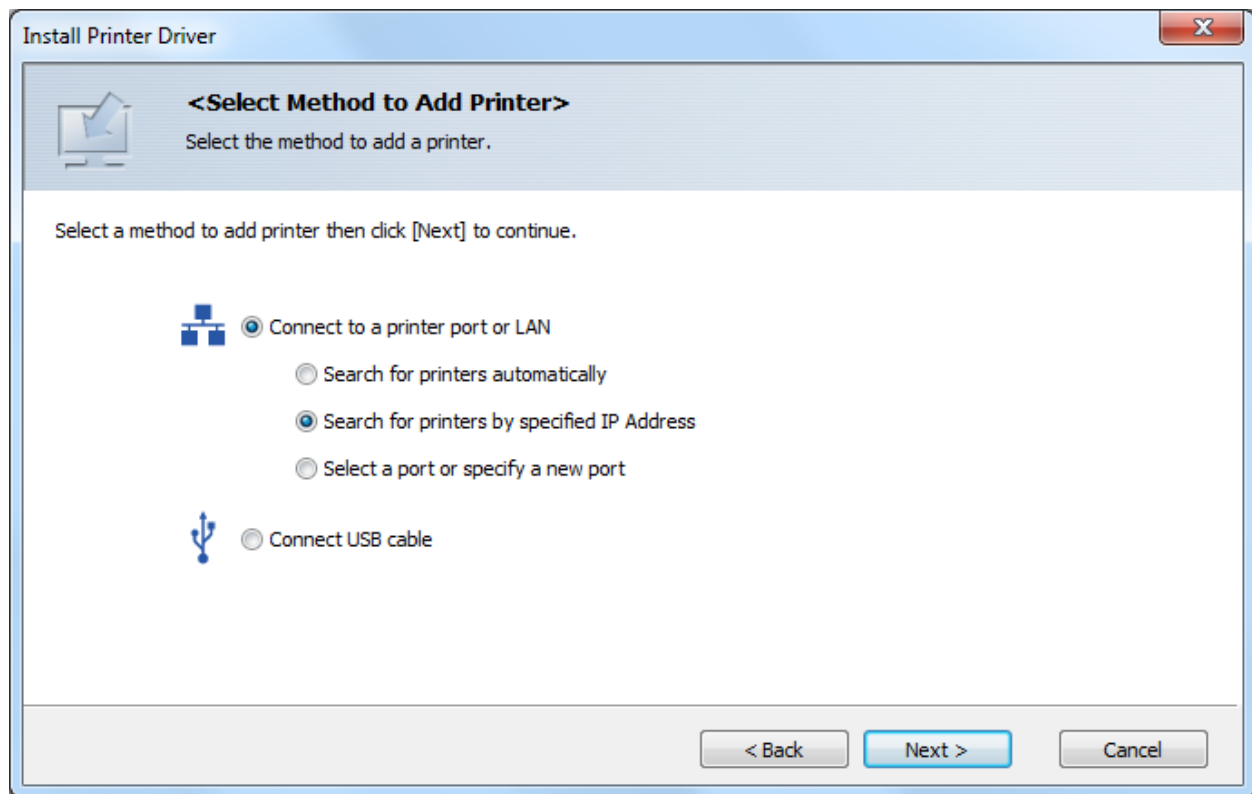

The first screen to appear is the license agreement. Accept the agreement and click Next.

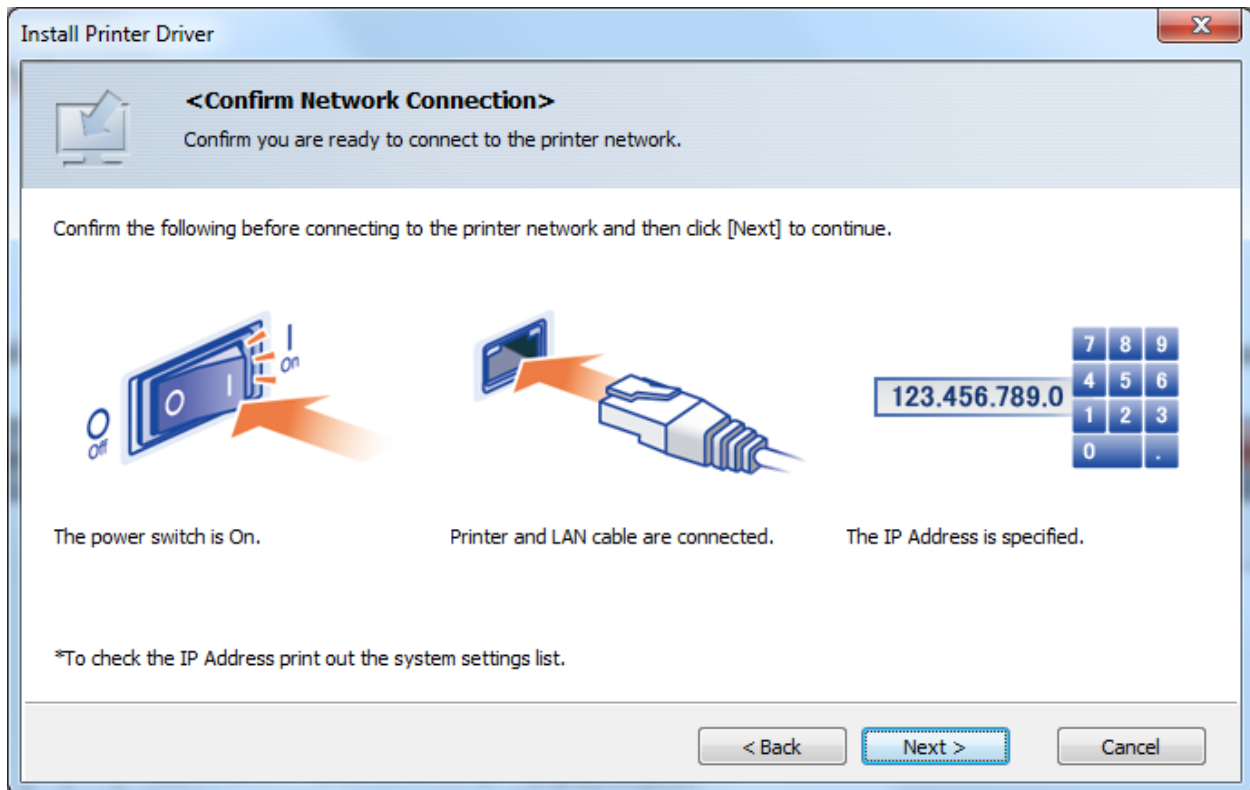

Next choose “Add a new printer” and click Next.

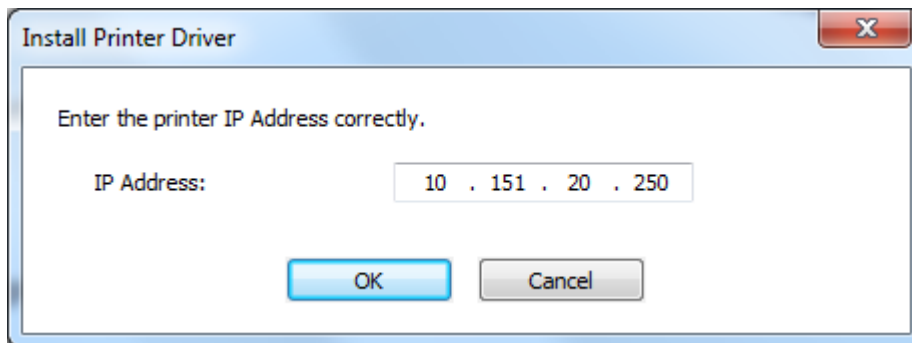

The printer is connected via the network. Select “Search for printers by specified IP Address” and click Next.

This screen will appear. Click Next.

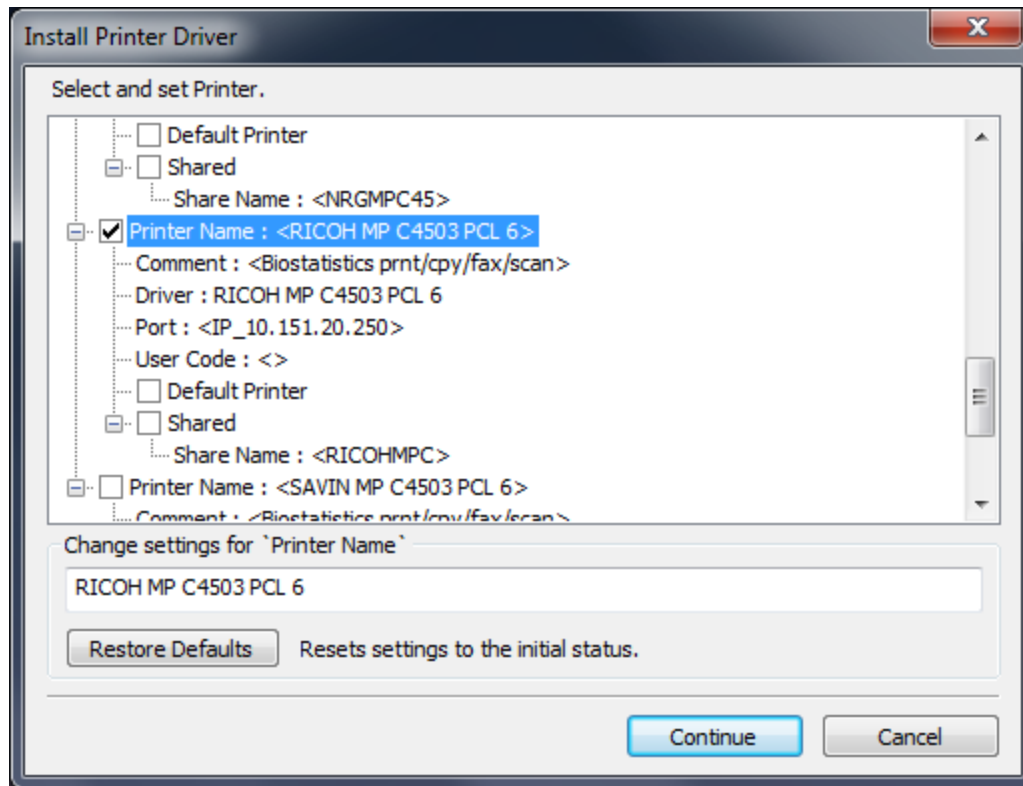

The installer will prompt for the printer's IP address. The address is 10.151.20.250. Click OK when the address is entered.

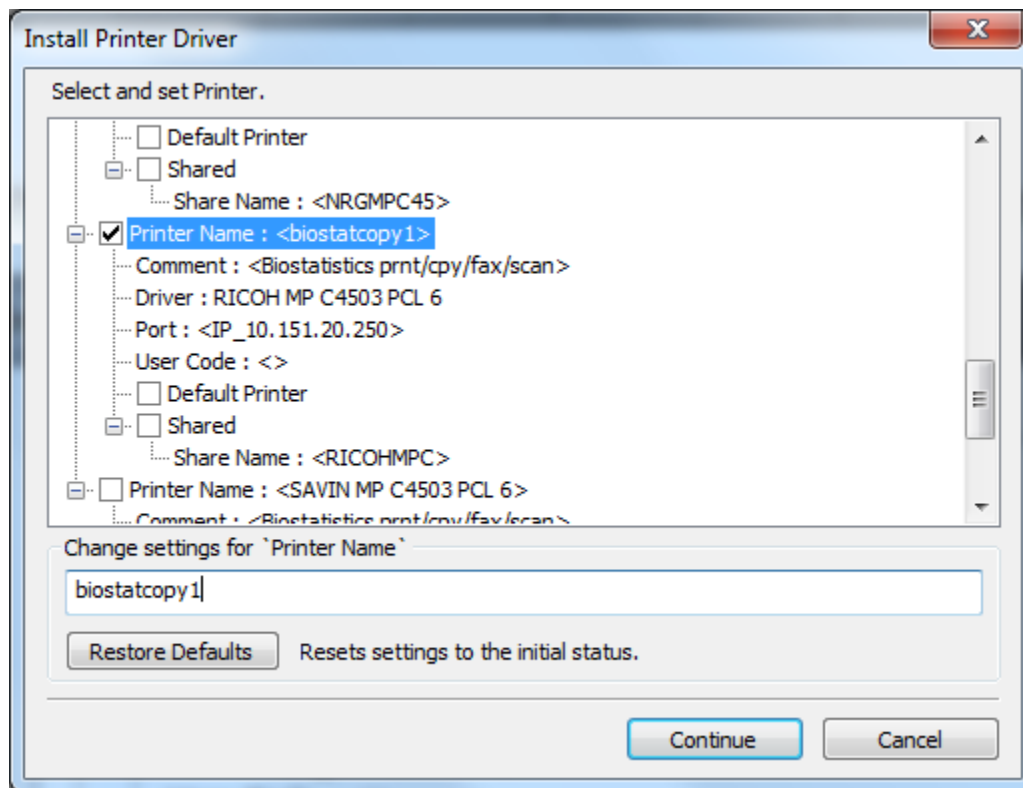

There will be another longish wait. Be patient.

Select the "RICOH MP C4503 PCL 6" item on the "Set and select Printer" window.

Enter the printer's common name (biostatcopy1) in the "Change settings for `Printer Name`" box. Click the Continue button.

Eventually, this screen will appear. You will need to reboot your computer to complete the process. Once that is done, the installation should be complete.
