

Steps to install printer driver for Xerox Phaser 6360 (Macintosh OSX 10.6 and up).

- go to <http://www.xerox.com>
- click on "Support & Drivers"

- in the "Search or choose" box enter "phaser 6360"
- click on "Phaser 6360"

The screenshot shows a web browser window with the address bar displaying www.support.xerox.com/support/enus.html. The browser's bookmark bar includes links to Home, Calendar, Weather, NY Times, BBC, Economist, Search Vanderbilt, Google, Gmail, and Airlines. The Xerox logo is visible in the top left corner of the page. A navigation menu at the top includes links for Services, Products, Supplies, Support & Drivers, and Contact. The "Support & Drivers" section is active, displaying the heading "Support & Drivers" and a subtext: "Find easy, instant, online assistance. Search for your product below for our knowledge base, FAQs, How Tos, drivers and documentation. Access the resources that Xerox Services offers. Learn how you can do more with your Xerox products."

Under the "Search or choose:" heading, there is a list of product categories: Printers, Multifunction & Fax, Copiers, Production Systems, Wide Format, Software & Platforms, Scanners & Peripherals, and an A-Z list of all products. A search input field contains the text "phaser 6360", and a dropdown menu below it shows "Phaser 6360" as a suggestion. Below the search field, there are search examples: "8400, workcentre 7665, igen".

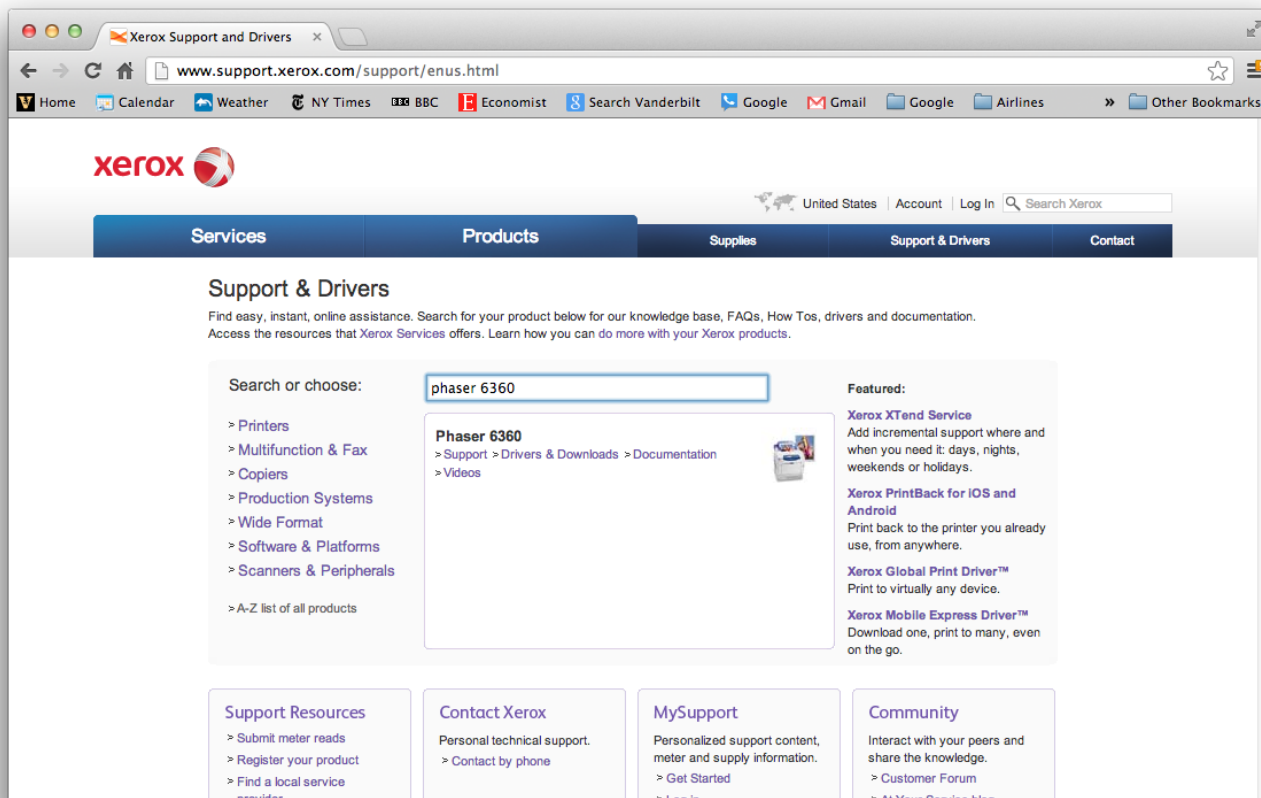

To the right of the search field, under the "Featured:" heading, there are four featured services:

- Xerox XTend Service**: Add incremental support where and when you need it: days, nights, weekends or holidays.
- Xerox PrintBack for iOS and Android**: Print back to the printer you already use, from anywhere.
- Xerox Global Print Driver™**: Print to virtually any device.
- Xerox Mobile Express Driver™**: Download one, print to many, even on the go.

At the bottom of the page, there are four columns of links:

- Support Resources**: Submit meter reads, Register your product, Find a local service provider.
- Contact Xerox**: Personal technical support, Contact by phone.
- MySupport**: Personalized support content, meter and supply information, Get Started, Log in.
- Community**: Interact with your peers and share the knowledge, Customer Forum, At Your Service blog.

- click on "Drivers & Downloads"

- make sure that the correct operating system and language is selected
- click on "Print Driver Installer for Max 10.6 through 10.8" to start downloading the installer

The screenshot shows a web browser window with the URL www.support.xerox.com/support/phaser-6360/downloads/enus.html?operatingSystem=macosx107. The page is titled "Phaser 6360 Support & Drivers". The navigation bar includes "Services", "Products", "Supplies", "Support & Drivers", and "Contact". The "Support & Drivers" section is active, showing a list of drivers and utilities. The "Drivers" section is highlighted, showing the "Print Driver Installer for Mac 10.6 through 10.8" as the recommended download. The page also includes a sidebar with "Refine Results" and "Product Resources".
